

Why We Took Ergonomics So Seriously

Binks Trophy Series Spray Guns feel different by design. They're lighter and are easier to handle over longer periods of time. That means operators can spray for longer periods with less fatigue and injury. This can make a big difference to productivity and your bottom line. That's why we take ergonomics so seriously.

BINKS TROPHY SERIES GUNS ARE:

- 1 LIGHT WEIGHT** – one of the lightest spray guns in the industry.
- 2 DESIGNED TO THE HAND** – our gun designers tested a variety of hands and grips to come up with the ideal design for the Trophy. The form is ultimately about function and reduced stress.
- 3 TRIGGER PULL** – the easy trigger pull action is created by the unique, built-in stabilization features.
- 4 NO KICK AIR VALVE** – delivers the smoothest trigger pull on the market. Virtually eliminates any recoil from triggering.
- 5 KNOBS AND AIR CAP RINGS** – all the hand adjustments have been designed and manufactured to make it nearly effortless to dial in on your settings or remove parts for maintenance or substitution.

ANATOMY OF A

The Binks Trophy Series Line of Spray Guns Offer Unparalleled Robustness For Industrial Coating and Finishing Requirements.
